

Slotted Flooring

Cattle and Hog Slats

For over 55 years, St. Henry Tile Company and Berne Ready Mix have been manufacturing slotted flooring for the livestock industry. With an extensive assortment of sizes and the willingness to work with you on your custom needs, we are here to serve.

◆◆◆ Features ◆◆◆

- *Double Layer of high tensile rebar
- *Fiber Reinforcing
- *Quality Controlled, High Strength Concrete

◆◆◆ Rubber Flooring ◆◆◆

- *COMFORT: Standing and resting behavior is more natural compared to bare concrete.
- *SAFETY: Better traction and more cushion results in reduced lameness and knee and hock issues.
- *PROFIT: Increased weight gain and improved feed conversion. Feeder cattle can start out on rubber flooring at lighter weights.

Panel Size	Top Size	Thickness
